

**PASS/FAIL OPTION FOR MARENGO COMMUNITY HIGH SCHOOL STUDENTS**

A Pass/Fail option is available to encourage juniors and seniors to take elective courses that might be challenging and may affect grade point average due to grade weight. A P/F grade does not get averaged into the grade point average nor does it affect honor roll or class rank status. Credit will be earned for a “P” grade. No credit will be earned for a “F” grade.

**RESTRICTIONS:**

This must be an elective course.

Only one class per semester may have this option.

Student must have the equivalent of 4 graded academic courses per semester to allow this additional course to be taken P/F.

P/F option must be recorded **PRIOR** to the start of the course.

P/F course may not change to a graded course once the course begins.

I have read the above description of the Pass/Fail option and wish to apply this to the following course. This selection will meet all of the above restrictions.
